2023-2026 Acura Integra - Spark Plug Replacement

2023-2026 Acura Integra | Advanced | 1-3 hours | $115 DIY

TOOLS

Metric/SAE socket set with extensions and swivel Spark-plug socket with rubber insert or magnet Torque wrench covering the plug range Compressed air or a soft brush, dielectric grease, gloves, and eye protection 14mm thin-wall spark-plug socket with rubber insert

PARTS

Correct spark plug set for the gasoline/ICE engine in 2023-2026 Acura Integra; verify engine, heat range, gap, and VIN fitment $115.00

Coil-boot seals or ignition coils only if inspection finds damage $35.00

STEPS

1. **Confirm engine and plug fitment - The OE plug is NGK ILZKAR8J8SY (stock #95660), a** heat-range-8 laser-iridium plug that arrives pre-gapped at 0.030 in - buy 4. Do not attempt to re-gap the fine-wire iridium tips.
2. **Cool and expose the plugs - Let the 1.5T cool completely - the turbo sits close to the** valve cover and holds heat. Disconnect the negative battery cable and lift off the engine cover.
3. **Remove coils and clean wells - Release each coil connector, remove the coil bolt, and** pull the coil straight up with a slow twist. Blow or brush every plug well clean before loosening anything - debris in these deep wells falls straight into the cylinder. Keep each co...
4. **Remove and install plugs - Remove the old plugs with a 14mm thin-wall spark-plug socket** and long extension (a standard 5/8 in socket won't fit the M12 wells), comparing reach and electrode condition. Start each new ILZKAR8J8SY by hand and tighten to the manufacturer...
5. **Reconnect and verify - Reinstall the coils, bolts, and connectors, refit the cover and** battery cable. Start the Integra and scan for misfires, then drive gently until warm before using boost. The 1.5T should idle smoothly and pull cleanly; any stutter under boos...
