2017-2022 Kia Niro - Brake Pad Replacement

2017-2022 Kia Niro | Advanced | 1-3 hours | $205 DIY

TOOLS

Floor jack, rated jack stands, and wheel chocks Lug wrench and calibrated torque wrench Brake piston compressor or suitable spreader Socket set, wire brush, brake cleaner, gloves, and eye protection

PARTS

Front or rear brake pad set for 2017-2022 Kia Niro; verify axle, brake package, and VIN fitment $180.00

Replacement pad hardware or wear sensor only if the kit requires it $25.00

STEPS

1. **Confirm the front brake setup - Check pad thickness through the caliper and look at the** rotors for rust ridges and scoring. Include fresh hardware, since the original clips are corroded by the time Niro pads are due.
2. **Lift and secure the Niro - Park on level ground, chock the rear wheels, and set the** parking brake. Break the front lug nuts loose with the car on the ground, then raise the front on rated jack stands and remove the wheel. Turn the steering toward the working side to...
3. **Remove the caliper and old pads - Hang it from the strut with a hook or wire - never let** it dangle by the brake hose. Slide the old pads out of the caliper bracket and remove the retaining clips.
4. **Prep the hardware and retract the piston - Wire-brush the bracket’s pad slide points** clean and install the new clips with a light film of brake grease where the pad ears ride. Check the brake fluid reservoir under the hood before compressing and siphon it below MAX if needed.
5. **Install pads, torque, pump, and bed in - Seat the new pads in the greased clips, lower** the caliper over the rotor, and torque the slide bolts to the spec in your owner’s manual or service info. Refit the wheel, lower the car, and torque the lug nuts to spec in a star pattern. Pum...
