2019-2024 Audi Q8 - Engine Oil & Filter Change

2019-2024 Audi Q8 | Moderate | 30-60 minutes | $57 DIY

TOOLS

Floor jack or ramps and rated jack stands if needed Oil-drain pan, funnel, gloves, and eye protection Socket or wrench for the drain plug and oil-filter tool Calibrated torque wrench and shop towels

PARTS

Engine Oil (0W-20) $45.00
Correct engine oil filter and drain-plug washer for 2019-2024 Audi Q8 $12.00

STEPS

1. **Confirm oil specification and make the vehicle safe - The 3.0L V6 turbo (EA839) holds 7.7** quarts of full-synthetic 0W-20 with the filter. Buy a cartridge element with a fresh O-ring and a filter-cap wrench. The filter is reached from above; the drain plug is underneath - raise the front on...
2. **Warm briefly and protect the work area - Idle 2-3 minutes, then shut off before the** exhaust gets scalding. Remove the underbody panel to reach the pan. Pop the hood, remove the filler cap, and lift the dipstick slightly to vent. Slide the drain pan under and spread cardboard fo...
3. **Drain the used oil and replace the filter - Turn the EA839’s plastic twist-lock drain** plug with the proper tool and replace its seal. Open the filter cap atop the engine, swap the cartridge with its fresh O-ring, and reseat the cap. Reinstall the plug with its new seal to the manual...
4. **Install the correct oil quantity - Set a funnel in the filler neck and pour in 7.7 quarts** of full-synthetic 0W-20. Pour slowly and watch the markings - it’s easier to add a final half-quart than to drain an overfill.
5. **Check level, leaks, and service reminder - Idle a full minute watching the plug and** filter area for leaks, then shut off and wait two minutes. Check the dipstick - top up if below full. Reset the service reminder through the MMI and recycle the used oil at any auto-parts store.
