2018-2024 Alfa Romeo Stelvio | Easy | 30-90 minutes | $180 DIY

TOOLS

10 mm wrench or socket, ratchet, and short extension Battery terminal brush and electrical-safe cleaner Memory saver only if the vehicle procedure permits it Gloves, eye protection, and a small flashlight

PARTS

Replacement 12-volt battery for 2018-2024 Alfa Romeo Stelvio; verify group size, CCA, terminal layout, and VIN fitment $180.00 Anti-corrosion terminal protectant or felt washers (optional) $8.00

STEPS

1. **Confirm the trunk battery and your symptoms - The 2018-2024 Alfa Romeo Stelvio keeps its** 12-volt battery inside the trunk, under the cargo floor, rather than under the hood. The factory fitment is a large battery, originally a Group 49/H8 EFB rated around 800 CCA, and catalogs commonl...
2. **Park and prepare for a dead trunk lock - Park the Stelvio on level ground, set the** parking brake, and switch the ignition fully off. Take the key fob away from the vehicle. Wear safety glasses and gloves.
3. **Access and disconnect the trunk battery - Unplug the Intelligent Battery Sensor connector** on the negative cable before loosening anything. Disconnect the negative (-) cable first, then the positive (+) cable. Lift the heavy battery straight out of the trunk well, keeping it uprigh...
4. **Install, vent, and reassemble the trunk - Set the new battery into the well in the same** orientation as the old one and clean any corrosion from the cable clamps with a wire brush. Reconnect the vent hose to the battery’s vent fitting so gases escape outside the vehicle. Reconnect...
5. **Verify operation and initialize steering - Start the Stelvio and confirm there are no** warning lights. If a steering warning appears, turn the steering wheel fully from lock to lock and back to center to initialize it, per the owner’s manual. Check charging voltage around 13.5 to 14...
