2019-2024 Audi A8 - Cabin Air Filter Replacement

2019-2024 Audi A8 | Easy | 15-25 minutes | $20 DIY

TOOLS
Flashlight Gloves Vacuum or rag for debris

PARTS
Cabin air filter $20.00

STEPS

1. **Prep and locate the filter - Park the A8, brake set. On the D5 the cabin filter sits** behind the passenger-side glove compartment - a quick interior job with no tools. Confirm the replacement matches the old filter’s footprint before installing. Inspect the filter at...
2. **Expose the filter door - Squeeze the glovebox sides inward to clear the stop tabs and let** the door swing down fully. Work the sides inward evenly - releasing one side first can twist the box on its hinges.
3. **Remove the old filter and clean - Unclip the filter cover and pull it off. Slide the old** filter straight out, noting which way its airflow arrow points. Wipe the empty housing so debris doesn’t fall into the blower. Keep the old filter level so trapped debris doesn’t fall...
4. **Install the new filter - Slide the new filter in with its arrow matching the old one.** Press it fully home so it sits flat - don’t bend the frame. Refit the cover until its clips engage. Push until the filter bottoms out; one that stops short bows and leaks.
5. **Reassemble and verify airflow - Raise the glovebox past its stop tabs, reconnect the** damper strap if equipped, and close it - confirm the latch works. Start the A8 on fresh air through several fan speeds: strong, clean airflow, no rattles or musty odor.
