2013-2022 Buick Encore - Wiper Blade Replacement

2013-2022 Buick Encore | Easy | 10-20 minutes | $81 DIY

TOOLS

Soft towel to protect the glass Small flat screwdriver only if the adapter requires it Gloves and a clean cloth

PARTS

Driver wiper blade, 26" Bosch 26A $32.99
Passenger wiper blade, 14" Bosch 14B $32.99
Rear wiper blade, 10" $14.99

STEPS

1. **Get the right blades: 26" driver, 13" passenger (pinch-tab arms) - The 2013-2022 Buick** Encore takes a 26-inch driver-side blade and a 13-inch passenger-side blade (some catalogs round the passenger blade to 14 inches - measure your old blade to be sure). The Encore does not use a common J-hook: its arms...
2. **Protect the glass - The Encore’s wiper arms tuck close to the hood edge, so raise them** carefully one at a time and place a folded towel on the windshield underneath. Never allow a bare spring-loaded arm to snap onto the glass.
3. **Remove the old blade - On the Encore’s pinch-tab arm, squeeze the two tabs on the blade** connector together and slide the blade off the arm’s button. Note exactly how the connector was oriented - the replacement must go back the same way.
4. **Install and lock the new blade - Fit the correct adapter (if the blade uses one) and** slide the new blade onto the arm’s button until the pinch tabs click into place, then tug gently to confirm it is locked.
5. **Test with washer fluid - Lower the arms gently, check the washer fluid level, and run a** wash-and-wipe cycle. The sweep should be smooth and quiet with no streaks or missed patches near the A-pillars.
