2015-2020 BMW M4 - Wiper Blade Replacement

2015-2020 BMW M4 | Easy | 10-15 minutes | $66 DIY

TOOLS
Microfiber cloth

PARTS
Driver wiper blade, 24" Bosch 24A $32.99
Passenger wiper blade, 18" $32.99

STEPS

1. **Confirm the 24-inch driver and 18-inch passenger sizes - Note that 2021-and-newer M4** models changed the passenger blade to 19 inches, so confirm your car is a 2020 or older before buying. The M4 has no rear wiper, so two blades is the whole job.
2. **Move the wipers to the service position - Switch the ignition on, then switch it off, and** immediately push the wiper stalk up and hold it - the arms will sweep up and stop where you can reach them. Never force the arms up from the parked position; you will scratch the hood paint...
3. **Release the old driver-side blade from the top-lock arm - The M4 uses a top-lock wiper** arm. Fold the driver-side arm up until it holds, then slide the small catch or cover on the blade's center connector upward. Hold the bare arm firmly the whole time - if it snaps back, it can crack the windsh...
4. **Prep the new 24-inch blade - Take the new 24-inch blade out of its sleeve and strip the** protective cap off the rubber edge without touching the rubber. Wipe the windshield along the blade's sweep with a microfiber cloth so the new rubber starts on clean glass.
5. **Slide the new blade on and close the catch - Slide the new 24-inch blade onto the arm,** then press the catch or cover down until it clicks shut - that click is the lock. Tug the blade firmly to confirm it cannot slide off.
6. **Install the 18-inch passenger blade - Do the same catch-release and install for the** 18-inch passenger blade. Check that the 24-inch blade is on the driver side - the lengths are easy to mix up. The M4 has no rear wiper, so the two fronts complete the job.
7. **Exit service position and test with washer fluid - Switch the ignition on and spray** washer fluid - one wipe cycle also returns the arms from the service position to their normal park. Re-seat any blade that misbehaves before driving in the rain.
