2020-2024 Chrysler Voyager - Wiper Blade

2020-2024 Chrysler Voyager | Easy | 15-20 minutes | $81 DIY

TOOLS
Microfiber cloth Glass cleaner

PARTS
Driver wiper blade, 26" Bosch 26A $32.99
Passenger wiper blade, 20" Bosch 20B $32.99
Rear wiper blade, 14" $14.99

STEPS

1. **Confirm the sizes and buy the blades - 26-inch driver, 20-inch passenger, 14-inch rear -** buy one of each, not a matched pair. Front arms use U/J-hook connectors, so most aftermarket blades with J-hook adapters fit. These 26/20/14 sizes hold across the Pacifica platform too.
2. **Park and prep - no service position needed - Wipers park on the glass - no service** position. Vehicle off, wiper switch off. Lift one arm at a time; the van is tall, so stand where you can reach.
3. **Release the old driver-side blade - Find the release tab where the blade’s connector** wraps the hook. Press the tab and slide the 26-inch blade down and out of the hook, guiding it clear of the glass. Keep a firm grip on the bare arm.
4. **Prep the new 26-inch blade - Remove the protective sleeve; keep your fingers off the** rubber wiping edge. Confirm the J-hook adapter is pre-fitted, then lay the new blade next to the old one to verify the 26-inch length.
5. **Hook the new blade on and verify the lock - Slide the new 26-inch blade up into the hook** until the locking tab clicks. Tug it firmly - completely immobile means locked. If it slides, pull it off and reseat it until the click is solid. Ease the arm back onto the windshield.
6. **Do the passenger side and the rear blade - Repeat for the 20-inch passenger blade - don’t** mix up the 26 and 20. Lift the rear arm, press the rear connector’s release and slide the old 14-inch blade off. Snap the new rear blade on until it locks; lower the arm.
7. **Test with washer fluid - Run the front wipers on low and high with washer fluid. Each** blade sweeps clean - no streaks or missed bands. Run the rear washer and wiper; the 14-inch blade should clear the glass. Re-seat any chattering blade - the connector didn’t...
