2015-2023 Dodge Challenger - Wiper Blade

2015-2023 Dodge Challenger | Easy | 10-15 minutes | $66 DIY

TOOLS

tape measure (to confirm 22"/22" against the old blades) clean rag folded towel (to protect the glass)

PARTS

Driver wiper blade, 22" Bosch 22A $32.99
Passenger wiper blade, 22" Bosch 22B $32.99

STEPS

1. **Confirm the sizes and buy the blades - Your Challenger takes 22 inches on the driver's** side and 22 inches on the passenger's side - both fronts are the same length, so this is an easy two-pack buy. One wrinkle: a couple of fitment charts list 2019-and-older cars at 22"/22" bu...
2. **Park the wipers and get the arms up - Wiper switch off, ignition off. Walk to the** driver's side and gently pull the arm up and away until it stands on its own at roughly 90 degrees.
3. **Remove the old driver's-side blade - Find the small release tab on the J-hook connector** at the blade's center saddle. Press the tab with your thumb and slide the blade down and out of the hook. Once the blade is free, lay a folded towel on the glass - a bare arm snapping ba...
4. **Prep the new blade - Unwrap the new 22-inch blade and peel off any plastic edge protector** on the rubber - leaving it on is the classic rookie move and it will smear and squeak. Double-check that the J-hook adapter is the one seated in the blade's center (som...
5. **Install the new blade and verify the lock - Give it a firm tug downward - it must not** move. Gently lower the arm back onto the windshield by hand, guiding it down. Run your finger along the rubber to make sure it sits flat with no twist.
6. **Repeat on the passenger side (no rear wiper on this car) - Same job on the passenger side** - same 22-inch blade, same J-hook, same tab-press release. While you're over there, check the plastic cowl grilles at the base of the windshield - leaves and pine needles collect there and work their way...
7. **Test with washer fluid - Ignition on, hit the washer - hold it long enough for a good wet** sweep across the whole windshield. Both blades should clear a clean, streak-free arc with no skipping, chattering, or untouched bands at the edges.
