STEPS

1. **Confirm the sizes and buy the blades - The 2013-2020 Infiniti QX60 takes a 26-inch blade** on the driver side, a 17-inch blade on the passenger side, and a 12-inch blade on the rear window. All three lengths are consistent across this whole generation (the 2013 was sold as the...
2. **Park the wipers and lift the driver-side arm - Turn the QX60 off and make sure the wipers** are parked at the base of the windshield. Work on one side at a time so the 26-inch and 17-inch blades do not get mixed up.

6. **Do the passenger side and the 12-inch rear blade - Repeat the tab-release and hook** install on the passenger side with the 17-inch blade. Fit the new 12-inch rear blade until it seats, and lower the arm back onto the glass.
