STEPS

1. **Prepare (12’ rear, snap-type!) - The 2017-2024 Cadillac XT5 Sport REAR wiper blade** replacement: 12’ rear blade (majority; some aftermarket list 11’ - flagged, verify). Snap/clip fitting on the small rear arm - NOT the front’s hook-type. You’ll need: new 12’ rear bla...
2. **Lift Rear Arm - The XT5 Sport’s rear arm is small - handle gently. The snap/clip fitting** is different from the front’s hook - don’t expect it to slide. The 12’ rear blade is the size - the 11’ aftermarket listing is flagged as possibly wrong.
3. **Unclip Old Rear Blade - Release the snap/clip to remove the old rear blade. The 12’ blade** comes off the small arm. Note the clip orientation for reinstall. The snap-type is the rear’s design - if you’re sliding, it’s the wrong motion.
4. **Clip New 12’ Blade On - Clip the new 12’ rear blade onto the arm. The snap fitting should** click. The 12’ (verify not 11’) is the size. The clip (not hook) is the attachment - it must snap, not slide.
5. **Lower, Test Rear Wiper - Lower the rear arm gently onto the glass. Test the rear wiper +** washer. The 12’ rear should clear its arc. If it skips, the clip may not be fully seated.
6. **Verify Clip, Done - Verify the 12’ rear blade is clipped and functional. The 12’ REAR** (not 24/20 front), the snap/clip (not hook-type), and the small rear arm are this guide’s defining specs. This is the REAR wiper - the front pair is a separate guide with...
