2023-2024 Kia Niro EV - Wiper Blade Replacement

2023-2024 Kia Niro EV | Easy | 15-20 minutes for all three blades | $81 DIY

TOOLS

Tape measure or ruler Microfiber cloth and glass cleaner

PARTS

Driver wiper blade, 26" Bosch 26A $32.99
Passenger wiper blade, 16" Bosch 16B $32.99
Rear wiper blade, 12" $14.99

STEPS

1. **Confirm the blade sizes - 26, 16, and 12 inches - 2023-2024 Niro EV: 26-inch (650 mm)** driver, 16-inch (400 mm) passenger, 12-inch (300 mm) rear blade. Trap: the 2021-2022 Niro used a 20-inch passenger blade. Front arms are 9x3mm J-hooks (OE 983502W000, 98360F2500); rear uses a Roc Loc...
2. **Put the front wipers in the service position - With vehicle OFF, within 20 seconds push** the stalk to MIST and hold over 2 seconds - the wipers rise to service position. Missed it? Cycle the vehicle on and off and retry. Never force the arms; turn ON and flick to MIST to park.
3. **Remove the old driver-side blade - Lift the driver-side arm by its hinge. Press the** release tab on the connector and slide the blade down along the arm, off the J-hook. If the tab is stiff, press firmly and wiggle along the arm’s axis - twisting bends the hook.
4. **Install the new 26-inch driver-side blade - Slide the J-hook into the new blade’s** connector and push up the arm until the tab clicks. Tug to confirm the lock, then lower the arm by hand, holding the arm - not the blade. Check the blade sits flat across all 26 inches.
5. **Replace the 16-inch passenger-side blade - Repeat the tab-and-slide swap on the passenger** side with the new 16-inch blade, clicking it home and resting the arm. Double-check against the old blade - the 2021-2022 Niro’s 20-inch blade is the classic wrong fit, overhanging the edg...
6. **Replace the 12-inch rear wiper blade - Lift the rear arm, release the clip’s tab, and** slide the blade off. Fit the new 12-inch blade until it locks and lower the arm. Never force a universal front blade on - the Roc Lock clip won’t accept it and you’ll damage the arm.
7. **Park the wipers and test all three blades - Turn the vehicle ON and flick to MIST to park** the wipers. Run the washers through sweeps - new blades should wipe silently with no streaks or chatter. If the passenger blade strikes the A-pillar or clashes with the driver blade, stop and...
