2018-2023 Kia Rio - Engine Oil & Filter Change

2018-2023 Kia Rio | Moderate | 30-60 minutes | $57 DIY

TOOLS

Floor jack or ramps and rated jack stands if needed Oil-drain pan, funnel, gloves, and eye protection Socket or wrench for the drain plug and oil-filter tool
Calibrated torque wrench and shop towels
17mm Socket

PARTS

Engine Oil (0W-20) $45.00
Correct engine oil filter and drain-plug washer for 2018-2023 Kia Rio $12.00

STEPS

1. **Confirm oil specification and make the vehicle safe - Your Kia Rio (2018-2023) with the** 1.6L I4 holds 4.0 quarts of full-synthetic 0W-20 with the filter changed. Pick up the correct filter for your model year, a 5-quart drain pan, a funnel, gloves, a 17mm socket for the drain plug, and an o...
2. **Warm briefly and protect the work area - Idle two to three minutes, then shut it off** before the exhaust gets scalding. Remove the underbody cover to reach the oil pan. Twist off the filler cap and lift the dipstick to vent. Slide the drain pan under the pan.
3. **Drain the used oil and replace the filter - Crack the drain plug (a 17mm socket fits most** - confirm fit) and spin it out by hand over the drain pan. Filter type depends on year - check before buying: 2018-2019 Rios use a spin-on canister (26300-35505 type) on the front of the...
4. **Install the correct oil quantity - Pour 4.0 quarts of full-synthetic 0W-20 through a** funnel - pour slowly and watch the markings; it’s easier to add a final half-quart than to drain an overfill.
5. **Check level, leaks, and service reminder - Start and idle a full minute, watching the** plug and filter for leaks, then shut off and wait two minutes for the oil to settle. Dipstick-check (pull, wipe, reseat, read) - top up if below full. Reset the service reminder via the cluster...
