2018-2024 Mitsubishi Eclipse Cross | Moderate | 30-60 minutes | $57 DIY

TOOLS

Floor jack or ramps and rated jack stands if needed Oil-drain pan, funnel, gloves, and eye protection Socket or wrench for the drain plug and oil-filter tool Calibrated torque wrench and shop towels

PARTS

Engine Oil (0W-20) $45.00
Correct engine oil filter and drain-plug washer for 2018-2024 Mitsubishi Eclipse Cross $12.00

STEPS

1. **Confirm oil specification and make the vehicle safe - 1.5L turbo 4B40: 4.5 quarts (4.3L)** 0W-20 with filter; interval 5,000 miles/6 months. Gather spin-on filter (Mitsubishi MZ690072 type), drain pan, socket set. Have a new drain-plug seal - the manual calls for replacing it every change.
2. **Warm briefly and protect the work area - Idle 2-3 minutes, switch off; pull the filler** cap. Raise the front on ramps or stands. The turbo's heat shield sits near the filter - let it cool a minute before reaching in. Slide a 5-quart-plus pan under the oil pan.
3. **Drain the used oil and replace the filter - Loosen the plug; finish by hand, drain to a** drip. Fit the new seal; tighten to 26-32 ft-lb. The spin-on is on the front of the 1.5T block - spin off, confirming the old gasket came away. Oil the new gasket; hand-tight plus three-quarte...
4. **Install the correct oil quantity - Pour 4.5 quarts (4.3L) 0W-20 - ~4 quarts first, wait a** minute, dipstick, top up gradually to full. Wipe the dipstick before each reading - the small 1.5T sump overfills easily. Refit the cap.
5. **Check level, leaks, and service reminder - Start, idle a minute; oil light out quickly.** Off, wait a few minutes, recheck dipstick, top up if needed. Check plug and filter for weeping; confirm all undertray fasteners are back. Reset the reminder via the cluster; note date and mileag...
