2014-2015 Nissan Rogue Select | Easy | 20-45 minutes | $35 DIY

TOOLS

Flat screwdriver or trim tool as fitted
Metric/SAE socket set and ratchet Clean shop towels and a flashlight Gloves and safety glasses

PARTS

Engine air filter for 2014-2015 Nissan Rogue Select; verify engine, housing shape, and VIN fitment Nissan 16546-30P00 $35.00

STEPS

1. **Confirm filter fitment and engine state - The 2014-2015 Nissan Rogue Select is the** rebadged first-generation Rogue with the 2.5L four-cylinder, and it uses the same filter as the 2008-2013 Rogue: Nissan part 1654630P00, with Fram CA6900 and Bosch 5076WS as common aftermarket e...
2. **Open the air box - Pop the hood and find the airbox on the driver’s side of the engine** bay. First remove the middle section of the intake tubing where it meets the airbox. Keep the lid away from the MAF sensor wiring and cover the open intake with a clean to...
3. **Inspect the old filter and housing - Separate the airbox cover and slide the old panel** filter out, noting which face is dirty to set the airflow direction. Vacuum the lower housing, because sand and leaf litter settle in the bottom of this box. Inspect the lid seal for harden...
4. **Refit the cover - Set the cover back on so its lower tabs engage the base slots, then** snap the two metal clips closed on either side.
5. **Close and verify the intake - Reinstall the middle intake tubing: align the slotted tabs** on both sides of the flange and snap all the tubing clips back into place until each one clicks. Remove the towel, double-check the MAF connector, then start the engine and listen...
