2000-2007 Ford Focus - Wiper Blade Replacement

2000-2007 Ford Focus | Easy | 10-20 minutes | $81 DIY

TOOLS

Soft towel to protect the glass Small flat screwdriver only if the adapter requires it Gloves and a clean cloth

PARTS

Driver wiper blade, 22" Bosch 22A $32.99
Passenger wiper blade, 19" Bosch 19B $32.99
Rear wiper blade, 15" $14.99

STEPS

1. **Get the right blades: 22" driver, 19" passenger, 15" rear (J-hook) - The 2000-2007 Ford** Focus (Mk1) takes a 22-inch driver-side blade, a 19-inch passenger-side blade, and - on hatchback models - a 15-inch rear blade, all on J-hook arms. Replace the front pair together, and do the 15-inch rear blade too...
2. **Protect the glass - Lift one Focus wiper arm at a time and lay a folded towel on the** windshield beneath it. Never allow a bare spring-loaded arm to snap onto the glass.
3. **Remove the old blade - Press the release tab where the blade meets the J-hook on the** Focus’s arm and slide the blade down and out of the hook. Pull straight along the arm’s direction - twisting sideways can bend the arm and ruin wiper pressure. Hold the old bl...
4. **Install and lock the new blade - Thread the new blade’s connector into the J-hook until** it clicks, then tug gently to confirm it is locked. Check that the blade sits flat on the glass with the rubber edge facing the same way as the blade you removed.
5. **Test with washer fluid - Lower the arm gently onto the glass, check the washer fluid, and** run a wash-and-wipe cycle. The sweep should be smooth with no streaks or chatter.
