2014-2023 Ford Transit Connect - Engine Air Filter

2014-2023 Ford Transit Connect | Easy | 20-45 minutes | $35 DIY

TOOLS

Flat screwdriver or trim tool as fitted Metric/SAE socket set and ratchet Clean shop towels and a flashlight Gloves and safety glasses

PARTS

Engine air filter for 2014-2023 Ford Transit Connect; verify engine, housing shape, and VIN fitment $35.00

STEPS

1. **Confirm filter fitment and engine state - The Transit Connect (2.5L and 2.0L fours)** carries its air filter in an airbox in the engine bay. Park level, engine off, let the bay cool. Match the replacement by footprint, seal, and airflow-arrow direction, and verify the catalog listin...
2. **Open the air box - Release the lid’s clips or fasteners per your van’s hardware - some** use screws needing an 8mm socket, so check before prying. Don’t force the lid until every fastener is free; heat-cycled tabs snap easily.
3. **Inspect the old filter and housing - Lift the old filter out and note which face is dirty** to establish the airflow direction. Vacuum the lower housing. Inspect the lid seal for flattening or tears, check the duct and clamps for cracks, and confirm the MAF connector is clean a...
4. **Install the new filter - Set the new filter in with its gasket fully captured in the** channel, airflow arrow matching the old element’s dirty side. Lower the lid straight down before engaging fasteners; never drag a crooked lid across the seal with screws or clips.
5. **Close and verify the intake - Engage every lid fastener with even tension - snug screws** firmly but do not overtighten the plastic bosses - so the seal compresses uniformly. Confirm the MAF connector is seated and its wiring clears the lid edge, then remove the towe...
