2022-2024 Hyundai Santa Cruz - Brake Pad

2022-2024 Hyundai Santa Cruz | Advanced | 1-3 hours | $205 DIY

TOOLS

Floor jack, rated jack stands, and wheel chocks Lug wrench and calibrated torque wrench Brake piston compressor or suitable spreader Socket set, wire brush, brake cleaner, gloves, and eye protection

PARTS

Front or rear brake pad set for 2022-2024 Hyundai Santa Cruz; verify axle, brake package, and VIN fitment $180.00
Replacement pad hardware or wear sensor only if the kit requires it $25.00

STEPS

1. **Confirm axle, parts, and brake condition - Multiple catalogs confirm 325mm (12.80 in)** front vented rotors on 5-lug hubs with floating calipers. The shared Santa Fe/Sorento/Santa Cruz front hardware means parts are widely available - confirm the 325mm rotor size on your specific tru...
2. **Lift and secure the vehicle - Park the Santa Cruz on level ground, set the parking brake,** and chock the rear wheels. Break the front lug nuts loose while the wheel is on the ground. Raise the front at the factory jacking points and set the truck on rated jack stands. R...
3. **Remove the caliper and old pads - The Santa Cruz front uses a floating caliper on guide** pins. Back the pins out, slide the caliper off the bracket, and hang it from the strut with wire so the hose is never loaded. Pull the old pads and their stainless hardware.
4. **Install pads and hardware - Clean the bracket’s pad slides with a wire brush and brake** cleaner, then grease the slide surfaces and guide pins. Fit the new stainless-steel hardware and multi-layer shims from the pad set, and slide the new front pads in with linings fa...
5. **Refit the wheel, pump, and bed in - Refit the front wheel and snug the lug nuts by hand.** Pump the brake pedal until it is firm before driving. Check the brake fluid level, then bed the pads with a series of moderate stops from about 50 mph on a safe road.
