2022-2024 Hyundai Santa Cruz - Engine Air Filter

2022-2024 Hyundai Santa Cruz | Easy | 20-45 minutes | $35 DIY

TOOLS

Flat screwdriver or trim tool as fitted Metric/SAE socket set and ratchet Clean shop towels and a flashlight Gloves and safety glasses

PARTS

Engine air filter for 2022-2024 Hyundai Santa Cruz; verify engine, housing shape, and VIN fitment 28113-L1000 $35.00

STEPS

1. **Confirm filter fitment and engine state - Park the Santa Cruz on level ground, switch the** engine off, and let it cool. The 2.5L GDI four takes a filter 276 by 165 by 38 millimeters (OE 28113-L1000). Set the filter beside the airbox and confirm the shape, gasket, and airflow arrow.
2. **Open the air box - Open the hood and find the airbox. Spring clips hold the lid, so no** tools are needed; flip each clip outward manually. Lift the lid without straining the duct or sensor wiring, and cover the intake opening with a clean towel while it’s exp...
3. **Inspect the old filter and housing - Lift the old filter out and note the airflow arrow** direction. Inspect the lower airbox for leaves, grit, and moisture, and check the intake duct, clamps, and sensor wiring for cracks, looseness, or oil residue. Vacuum debris from the dirty...
4. **Install the new filter - Clean the housing, then seat the filter following the airflow** arrow. The gasket must rest evenly on the sealing lip, and the filter should drop flat without force - if it needs force, it doesn’t fit. Confirm no pleats are crushed before...
5. **Close and verify the intake - Lower the lid, snap every clip over its tab, tug to confirm** the seal, then refit the intake duct, snug the clamp, and reconnect the sensor plug until it clicks. Start the engine and listen at idle for a whistling intake leak or loose-housi...
