# 2019-2023 Hyundai Santa Fe - Engine Air Filter

**2019-2023 Hyundai Santa Fe | Easy | 20-45 minutes | $35 DIY**

**TOOLS**

Flat screwdriver or trim tool as fitted Metric/SAE socket set and ratchet Clean shop towels and a flashlight Gloves and safety glasses

**PARTS**

Engine air filter for 2019-2023 Hyundai Santa Fe Hybrid; verify engine, housing shape, and VIN fitment 28113-L5100 $35.00

## STEPS

1. **Confirm filter fitment and engine state - The 2021-2023 Santa Fe Hybrid runs the 1.6L** turbo Smartstream hybrid powertrain, and its engine air filter is a hybrid-specific panel element: Hyundai part 28113-L5100, with Fram CA12817 as a common aftermarket equivalent. Do not use the...
2. **Open the air box - This is a no-tools job when the clips cooperate, but do not force a** corroded clip. A broken clip means the lid will never seal again.
3. **Inspect the old filter and housing - Lift the old panel filter out and note which face is** dirty to establish the airflow direction. Vacuum the lower housing for leaves and grit, and inspect the lid seal for hardening or tears - a leaking seal on the turbo hybrid lets unfilt...
4. **Install the new filter - Set the new 28113-L5100 filter into the lower half with its** gasket fully captured in the channel and the airflow arrow matching the old element's dirty side. The panel must sit flat with no rocking.
5. **Close and verify the intake - Snap every metal clip closed with even tension so the seal** compresses uniformly around the element - each clip should click shut without a fight. Remove the towel, confirm the MAF connector is seated, then start the vehicle and listen at...
