

2010-2015 Lexus RX | Advanced | 1-3 hours | \$180 DIY

**TOOLS**

Floor jack, rated jack stands, and wheel chocks Lug wrench and calibrated torque wrench Brake piston compressor or suitable spreader Socket set, wire brush, brake cleaner, gloves, and eye protection

**PARTS**

Front or rear brake pad set for 2010-2024 Lexus RX 350 Premium Plus; verify axle, brake package, and VIN fitment \$180.00 Replacement pad hardware or wear sensor only if the kit requires it \$25.00

**STEPS**

- 1 Confirm axle, parts, and brake condition - Verify the front or rear axle, pad shape,** brake package, rotor thickness, and wear-sensor arrangement for the 2010-2024 Lexus RX 350 Premium Plus. Read the owner/service information for the exact torque values.
- 2 Lift and secure the vehicle - Park the 2010-2024 Lexus RX 350 Premium Plus level,** set the parking brake only as appropriate for the axle being serviced, chock the wheels, loosen lug nuts, and support the vehicle on rated jack stands.
- 3 Remove the caliper and old pads - Remove the wheel and caliper hardware on the 2010-2024** Lexus RX 350 Premium Plus. Support the caliper with a hook, remove the old pads and hardware, and inspect the rotor, pins, boots, hose, and piston for damage or leaks.
- 4 Install pads and hardware - Clean the bracket contact points, install the correct** hardware and pads on the 2010-2024 Lexus RX 350 Premium Plus, and retract the piston only with the correct tool and procedure. Keep friction surfaces free of grease and brake cleaner re...
- 5 Torque, pump, and bed in - Reinstall the caliper and wheel on the 2010-2024 Lexus RX 350** Premium Plus using exact vehicle-specific torque, pump the pedal until firm before moving, verify fluid level, and follow the pad maker's moderate bedding procedure in a safe ar...
