2016-2023 Mercedes-Benz Metris | Moderate | 30-60 minutes | $57 DIY

TOOLS

Floor jack or ramps and rated jack stands if needed Oil-drain pan, funnel, gloves, and eye protection Socket or wrench for the drain plug and oil-filter tool Calibrated torque wrench and shop towels

PARTS

Engine Oil (5W-40) $45.00
Correct engine oil filter and drain-plug washer for 2016-2023 Mercedes-Benz Metris $12.00

STEPS

1. **Confirm oil specification and make the vehicle safe - M274 2.0L turbo: 8.1 quarts (7.7** liters) with filter - buy enough. Spec: 5W-40 meeting MB 229.5; confirm the approval on the bottle. Interval 10,000 miles/12 months. Park level, brake set. Gather cartridge element with new O-ring, washer...
2. **Warm briefly and protect the work area - Idle a few minutes, off; pull the filler cap. It** sits high - the plug is usually reachable without lifting. Slide the large pan under the oil pan; 8+ quarts overflows an undersized pan.
3. **Drain the used oil and replace the cartridge filter - Pull the plug; drain fully. Refit** with a new washer, tighten firmly. The cartridge housing is top-side: loosen the cap, lift out the old element. Swap the cartridge; seat the new O-ring oiled in the cap groove - don’t overtighten the pla...
4. **Install the correct oil quantity - Pour 8.1 quarts (7.7L) MB 229.5 5W-40 - 7 quarts** first, wait a few minutes, dipstick, top up gradually. Pour slowly; the filler neck gurgles and splashes if rushed. Refit the cap.
5. **Check level, leaks, and service reminder - Start, idle a minute; oil-pressure warning** must stay off. Off, wait several minutes, recheck dipstick on level ground, adjust to full. Inspect plug and housing for leaks. Reset the reminder via the cluster; note date and mileage.
