2014-2020 Nissan Rogue - Add Transmission Fluid

2014-2020 Nissan Rogue | Moderate | 1-2 hours | $27 DIY

TOOLS

10mm Socket Flathead Screwdriver Jack Stands Transmission Funnel Drain Pan Torque Wrench Rubber Gloves Safety Glasses Creeper or Mat Flashlight

PARTS

Nissan CVT Fluid 999MP-NS300P $25.00
Transmission Drain Plug Washer 11026-1AA0A $2.00

STEPS

1. **Confirm the correct procedure - On the 2014-2020 Nissan Rogue: understand what you are** dealing with before adding a drop. This car uses a Jatco CVT that takes only Genuine Nissan CVT Fluid NS-3 (or a certified NS-3 equivalent) - never ATF, never universal fluid, never...
2. **Warm the transmission - Park the 2014-2020 Nissan Rogue on perfectly level ground - the** CVT level check is temperature- and level-sensitive, so a sloped driveway invalidates the whole procedure. Warm the transmission with a 10-15 minute drive so the fluid reach...
3. **Access the dipstick or fill plug - Locate the CVT charge pipe on the 2014-2020 Nissan** Rogue - the fill tube with a locking plastic cap, accessed from the engine bay. Wear eye protection; the fluid will be hot.
4. **Check the level and condition - On the 2014-2020 Nissan Rogue: the proper level check** uses the overflow plug on the transmission case with the fluid at operating temperature and the engine running - fluid should just trickle from the plug at the correct level. This is...
5. **Top off only if needed and recheck - Add only Genuine Nissan NS-3 in small amounts** through the charge pipe using a funnel, then recheck the level via the overflow-plug method with the engine running at operating temperature. Reinstall the charge-pipe cap fully - it must loc...
