PARTS

Left Front Window Regulator Assembly 1K0837461A $150.00
Window Regulator Motor 1K0959702A $120.00
Window Glass Adhesive Tape $10.00

STEPS

1. **Disconnect the battery and remove the door panel - Disconnect the negative battery cable** on the 2015-2018 Volkswagen Jetta (important if side airbags are in the door). Pry off trim caps, remove door-panel screws, and carefully unclip the panel. Unplug window/lock switches and the handle ca...
2. **Support the glass and expose the regulator - Tape the window glass in the up position or** support it with a suction cup/block. Peel back the watershield carefully so it can be reused. Locate the regulator rails, motor, and glass channel bolts on the 2015-2018 Volkswagen Jetta door.
3. **Separate the glass from the regulator - Lower the glass slightly if needed (temporarily** reconnect power) to access the glass-clamp bolts, then support the glass and remove those bolts. Lift and tape the glass fully up out of the way inside the 2015-2018 Volkswagen Jetta door.
4. **Unbolt the motor/regulator and remove it - Unplug the window motor connector. Remove the** regulator mounting bolts and fish the assembly out through the access opening. Compare the new regulator/motor to the old one for the 2015-2018 Volkswagen Jetta.
5. **Install the new regulator and reattach the glass - Fish the new regulator into the door,** start all mounting bolts, and torque to spec. Reconnect the motor plug. Align the glass into the clamps, install bolts, and verify smooth travel before final torque on the 2015-2018 Volkswagen Jetta.
6. **Reassemble the door and test auto-up - Refit the watershield, reconnect switches/cables,** and reinstall the door panel. Reconnect the battery. Test one-touch up/down and pinch protection; perform the window initialization procedure if the 2015-2018 Volkswagen Jetta requires it a...
